THE DATA ENGINE

HOW STOCK FINDS ITS MARKET

Every unit runs through the same engine, whichever way it travels: we read live demand and pricing across markets, price the buy, then list and fulfil cross-border from one HUB. The same data that tells us what to pay tells us where to sell.

◆ LIVE PRICING

8,000 products price-monitored continuously — listings priced to win, not to guess.

◆ MULTI-CHANNEL

Allegro, MediaMarkt, amazon, Refurbed, Empik and our own store — **six channels** from one feed.

◆ CROSS-BORDER

~**80%** of orders shipped in 24h, ~35% same day, to 28 EU markets.

◆ REPORTING

Sell-through, demand and margin analytics — you see what moves and where.

COMMERCIAL TERMS

WHY BUYING FROM US **PAYS**

Four reasons resellers keep coming back. Prices, MOQ and payment terms are agreed per account — ask at the stand.

TOP BRANDS

The brands that actually sell. Consumer electronics, audio, phones and accessories — 241 brands in rotation, ~11k active EANs.

WHERE IT COMES FROM

We buy surplus, so you buy sharp. Overstock, clearance, customer returns, open-box and end-of-line — bought from suppliers across Europe and priced against live market data. That is where the margin in your basket comes from.

BEST PRICES

Best brands, best prices. On top brands we negotiate down to **50% of wholesale**. Ask for the current list — prices move with the market.

SOURCING NETWORK

Tell us what you need — we will find it. If it is not in our stock, it is in our network. Between us and our partners we source practically any product. Bring us a hard one.

BUYING VOLUME

Bulk pricing without the bulk commitment. We collect demand from the whole market and buy in very large quantities, so you get sharp prices against your MOQ instead of financing a container yourself.

LOGISTICS

~80% of orders out within 24h, ~35% same day. B2B across 28 EU markets, shipped from one warehouse in Poland.

ASK US

Bring your shopping list to **stand H27E-17**. We quote against it on the spot — and whatever is not on our shelf, we source from the network.
